

MOUNTAIN SENTINEL.

EBENSBURG, PA.

THURSDAY, NOVEMBER 22, 1849.

The Sentinel, has much the largest circulation of any paper published in this county...

This is the day appointed by Gov. Johnston to be devoted to thanksgiving and prayer for the manifold blessings bestowed upon us by a most bountiful Providence.

We have not yet received the proceedings of the meeting held in Johnstown a few days since with a view of forming a new county out of parts of Cambria, Somerset, Westmoreland and Indiana.

Congress.

This body will assemble on Monday next. As it is the first session under the administration of Gen. Taylor, the President's Message will be looked for with considerable interest.

It is hoped that every democratic member of Congress will be present at the opening of the session. Should this be the case, the democrats will doubtless carry the organization of the House, and thus prevent their opponents from breaking their promises by making any more removals in that quarter.

Col. John W. Forney.

With almost unparalleled unanimity, the Pennsylvania Democratic Press have recommended Col. Forney, the talented and accomplished editor of the Philadelphia Pennsylvanian, for Clerk of the National House of Representatives.

Pictorial Brother Jonathan.

This mammoth sheet of Pictorial illustrations intended for the coming holidays has been received, and we must say that it far exceeds any of its predecessors that we have seen in point of design and beauty of engravings.

Scott's Weekly Paper.

We learn that this excellent family paper is about being enlarged and improved, and printed on an entire new font of type. This paper ranks among the best of our literary journals, and is very extensively patronized.

Important! We learn by the last Johnstown News that there is still an editor in this State who has been unable to perceive what has rendered the present National and State Administrations so unpopular with the people!

Henry Clay.

There is report going the rounds, and it seems to be well founded, that this eminent Statesman is about to assume the duties of Secretary of State in General Taylor's Cabinet.

England and France Outwitted.

This morning's mail brings us intelligence which leads us to suppose that both England and France have been overreached in the affair of the Hungarian refugees.

Spread of the Annexation Feeling in Canada.

The Toronto (Ca.) Independent, of the 10th inst. has a letter from a correspondent in Missisquoi, which says:—The feeling of annexation is rapidly gaining ground here.

Easily Satisfied.

The Johnstown News, in speaking of the recent election in New York, breaks out in the following language:—The whigs of New York have only got both Houses of Legislature and every thing else they wanted!

Appointment by the President.

We see it officially announced that James M. Power, one of the Board of Canal Commissioners, has been appointed Charge d'Affairs to Naples in place of Hon. Thomas W. China, resigned.

civilization—that properly appreciates and concedes to man his true position on earth. Under its influence our country has grown and prospered in a ratio approximated by no other country on the face of the earth.

From the Philadelphia Ledger.

The Money Market. In almost every resolution passed by the Convention of Manufacturers, held at Trenton last week, for the purpose of urging upon the attention of Congress, through higher duties, more protection of domestic manufactures, we find an assurance of how much better off the farmers are under a system of high duties than when allowed the freedom of the market of the world.

From Mexico.

We received yesterday, files of the Monitor Republicano and Trait d'Union of the city of Mexico, to the 20th ult., the Vera Cruz Locomotor of the 22d, and the Jalapa Zempolteca to the 23d, inclusive.

Russia and the Ottoman Porte.

Whatever may have been the ultimate views of Russia when she imperatively demanded the extradition of the Hungarian prisoners, and threatened in case they were not delivered up, to regard it as a cause of war against the Porte; she seems, by the last arrival, to have greatly changed her tone.

From the Carlisle Volunteer.

The following letter from Col. Bigler to a friend in this county, has been handed us, with the request that we publish it. We cheerfully comply with the request. Like every thing from the pen of this sterling democrat, it is sensible and pointed.

Clearfield, Nov. 2, 1849.

Dear Sir:—I have your favor of the 27th ult., reminding me of predictions which I made in November, 1848, and which have already been verified. I had then, as I have now, unflinching confidence in the strength of the great Democratic party of this country.

dom on their march? The wealth and the naval armaments of England—the warlike, enthusiastic armies of France—wronged and indignant Lombardy and Venice—the bold and free spirits of Germany, oppressed and trampled in the dust—and the Hungarians, the butcheries of whose brave defenders may be traced to Russian bayonets—the Poles, who, sold and betrayed, have deep and deadly wrongs to avenge—all would rise up in one great league against the Northern despot—and what would be his security at home? One great battle lost, and he will might tremble for the stability of his throne.

FOREIGN NEWS.

ARRIVAL OF THE CALEDONIA.

Boston, Nov. 25, 1849.

The Caledonia arrived here at 11 o'clock last night, from Liverpool. The intelligence by the Caledonia is of comparatively little interest. No event of special importance has occurred in any part of Europe.

Austria.

Some three additional executions have taken place. Haynau has published an amnesty and the Emperor has decreed that all officers who return to the Austrian standard before November 26th, 1849, are to be restored to their rank.

Russia.

Fuad Effendi has been informed by Count Nesselrode that the Czar demands that the Hungarian refugees should be located in the interior of Candia, or in such part of the Turkish territory as may afford the greatest facilities for keeping them under surveillance.

From Mexico.

We received yesterday, files of the Monitor Republicano and Trait d'Union of the city of Mexico, to the 20th ult., the Vera Cruz Locomotor of the 22d, and the Jalapa Zempolteca to the 23d, inclusive.

Russia and the Ottoman Porte.
